WORK EXPERIENCE

Cino (July/2018 to October/2019)

Web Developer

 Developed single page application of an inventory system with entirely responsive design and cross-browser compatibility in a mobile-first approach using React. Designed complex layout using CSS Frameworks like Bootstrap, Material UI and CSS grids. Asynchronous programming for dynamic in-page changes using XHTTP API calls.

ReactJS	JavaScript	HTML	Bootstrap	CSS	JSON
Restful API	l Fetch	Axios			

SSTech (June/2016 - December/2016)

Intern

 Improving the granularity of the source code and raise the test coverage of the product by creating JUnit test-cases. Raise cohesion in the design, debugging and ensuring the correctness is under optimum levels. Worked on creating static websites.

JAVA | JUnit | UML

PROJECTS

Twitter Analytic (December 2017- April 2018)

 Developed web application UI to get and post tweets data based on a keyword search using Twitter4J API. Implemented the design in the TDD environment and achieved 80 percentile test coverage. Documented the project in JACOCO. An engaging approach by implementing Feedback design.

HTML | JavaScript | CSS | JAVA

Schedule Builder (September/2018 to January/2019)

 Built a design for Student schedule builder using the Iterator, Facade design patterns and created a scope for the system to evolve by slashing out the coupling and raising the cohesion. Developed pseudo-code for better understandable documentation. JAVA UML

Complexity Estimator (April/2017 to July/2017)

Programmed a Class for Random number generator and calculated the complexity involved in it by using tools like cyclometric estimator. Enhanced its performance by performing the debugging and destructing out unnecessary memory usage.

JAVA | Junit | Cyclomatic Tool plugin

SKILLS

JavaScript, HTML, Bootstrap, CSS	••••
Java, C++	••••
Visual Studio Code, Eclipse	••••
React. Restful API	

TOOLS

git, GIT Hub

Adobe Photoshop

LEARNING

- JavaScript Proficiency course on JS at Tree-House.
- Attended seminar on IOT By Patrick L'Ecuyer Singh, Sr. Security Consultant at Google, Montreal (Oct. 2017)

CAREER INTERESTS

UI/UX Full Stack Development IOT

Neural Networks System Security

AI Data Science

EDUCATION

Software Engineering Concordia University

Masters in Software Engineering

Bachelors in Technology JNTUK

2012-2016

Rajahmundry,India

Bachelor's in Electrical and Electronics Engineering

INTERESTED FINDINGS

Problem Solving Neural Networks

Electronics

CERTIFICATION

Software Development Trainee

Aspiring Minds

♀ JNTUK,India

Credential ID 1996777-211
